PROFESSIONAL EXPERIENCE

3D Game Artist Intern

Bulldog Studios / Staffordshire University - Aug-Oct 2024

- Created production-ready stylised weapon assets for an Unreal Engine 5 project.
- Produced two weapon designs with multiple visual variants for a modular customisation system.
- Built a tint-mask workflow so colours and regions could be customised in-engine.
- Modelled, textured and prepared assets for real-time use while iterating from feedback.

ACADEMIC PROJECTS

01 / SENIOR COLLABORATIVE GAMES DEVELOPMENT

Senior Collaborative Games Development Module

Staffordshire University - Mar-Apr 2023

- Led a team of artists, managing project milestones and alignment through JIRA and Miro while collaborating closely with design and tech teams.
- Incorporated feedback from Rockstar Games and other major studios to refine assets, strengthen the art style and improve visual fidelity.
- Applied advanced PBR workflows to deliver polished, game-ready assets to a high visual standard.

02 / JUNIOR COLLABORATIVE GAMES DEVELOPMENT

Junior Collaborative Games Development Module

Staffordshire University - Mar-Apr 2022

- Contributed to game concept development and coordinated tasks across art, design and tech teams.
- Developed mood boards and asset lists to align the art team's work with the overall visual direction.
- Modelled, unwrapped and textured game-ready assets using a PBR workflow, with a focus on strong visual quality.

EDUCATION + RECOGNITION

BSc (Hons) Computer Games Design - First Class Honours

Staffordshire University, 2020-2023

TIGA Graduate of the Year 2023 - Artist

OPEN TO

Games / CGI / visualisation / XR / virtual production / simulation / experiential / real-time 3D.
