PROFILE

First-Class Computer Games Design graduate and TIGA award-winning artist with studio, hospitality and volunteer experience. I bring a practical, creative approach to work, from making game-ready assets to helping customers in a busy cafe. Currently UK-based and planning my next chapter in Melbourne and east-coast Australia. Open to discussing creative, hospitality and remote opportunities.

SKILLS & TOOLS

3D modelling, sculpting and texturing; customer service; espresso-based drinks; cash handling; stock management; teamwork; creative problem-solving; time management.

3ds Max, ZBrush, Substance Painter and Designer, Unreal Engine 5, Photoshop, Marmoset and Marvelous Designer.

EXPERIENCE

3D Artist Intern

Bulldog Studios, University of Staffordshire | Aug - Oct 2024

- Created game-ready digital assets within a professional studio pipeline.
- Used Substance Painter and Unreal Engine 5 to develop materials and textures.
- Contributed to team progress meetings, responded to feedback and delivered work to deadlines.

Barista / Customer Service

Chill Coffee and Aune Valley | 2024 - 2025

- Prepared espresso-based drinks and provided friendly service in busy environments.
- Handled payments, managed stock and maintained food hygiene standards.

Festival Steward & Teaching Assistant

Volunteer experience

- Supported crowd management and visitor communication at live events.
- Helped Year 9 students create short films in a media workshop.

EDUCATION & DEVELOPMENT

BSc (Hons) Computer Games Design - First Class Honours

Staffordshire University | 2020 - 2023. TIGA Graduate of the Year 2023 - Artist.

Level 2 Certificate in the Principles of Cyber Security, completed 2026. Interested in the overlap between creativity, technology and practical problem-solving.

SELECTED TEAM PROJECT

Senior Collaborative Games Development

Staffordshire University | 2023

Led a team of artists, coordinated with design and engineering using Jira and Miro, and used feedback to improve project outputs.
